

INNOVATION AND TECHNOLOGY
FOR PRINTING INDUSTRY

FastWash

Extreme The Newest Innovation

UPGRADES :

- Sprays an higher amount of solvent and water on the 1st printing unit (BLACK)
- New software version. Operator interface more user friendly
- Use the NEW Elettra solvent **ECO101** series

NEW FEATURES:

- Possibility to spray the emulsion (WATER and CLEANING SOLUTION) with 80% of WATER
- “Auto intensity” washing program that calculates the washing length depending to the printed copies

ADVANTAGES:

- The NEW Elettra solvent **ECO101** series are: **0% VOC**

- 100% Vegetable base solvent**
- 100% Biodegradable**
- 100% Renewable** (From renewable sources)
- 100% Water soluble**
- 100% Safe for the dryer**

Highest cleaning power compared to the competitors

- Reduced solvent consumption and waste copies
- Improved the printing quality return
- SAVING from **30% to 50%**
