

ELETTRA PREWET CLOTH (Pre-soaked Cloth)

INNOVATION AND TECHNOLOGY FOR PRINTING INDUSTRY

ADVANTAGES:

- Easy to handle and Ready to use
- Same cloth amount per cloth spindle
- Same and correct cloth tension
- Fast cloth change operation on the spindle
- Worldwide availability through local dealers
- No cost on OEM's side for the automatic cloth winder
- No cost on OEM's side to buying apart the blanket cleaning solution
- The New Elettra ECO101 series cleaning solution is already dosed in the prewet cloth
- Each prewet cloth is contained in a perfect vacuum sealed package

The New Elettra solvent ECO101 series used are:

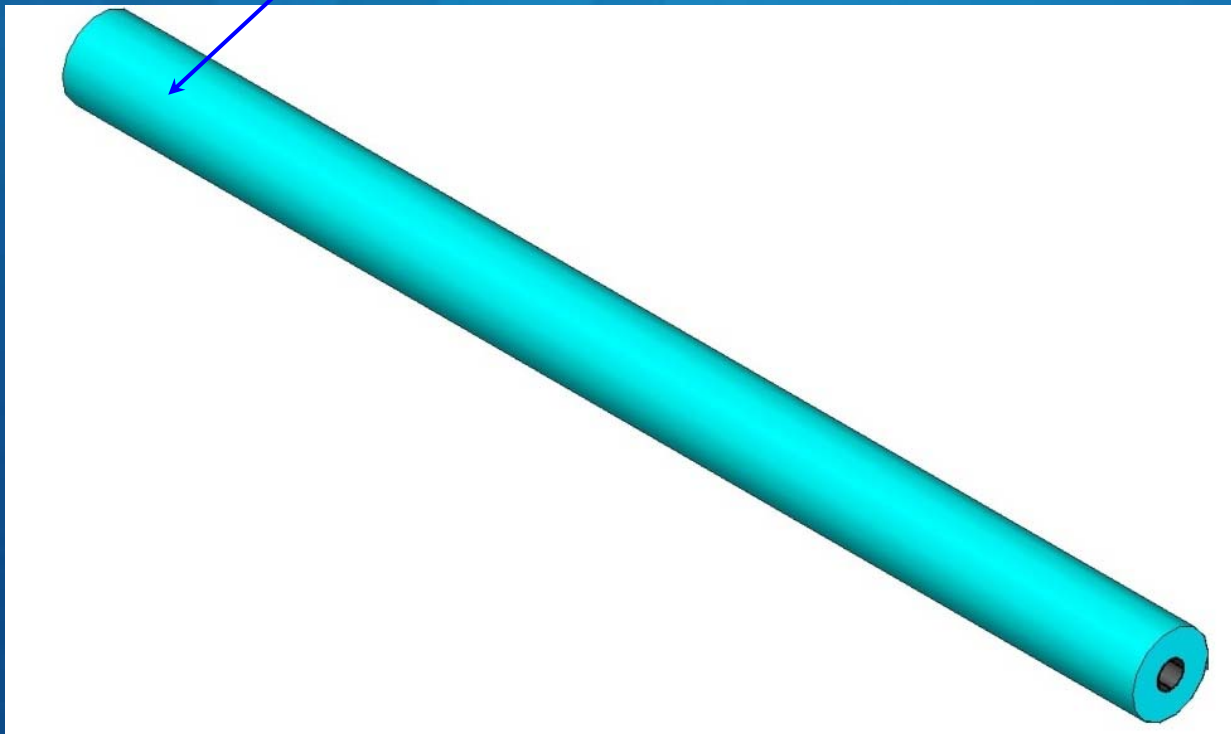

- 0% VOC
- 100% Vegetable base solvent
- 100% Biodegradable
- 100% Renewable (From renewable sources)
- 100% Water soluble
- 100% Safe for the dryer
- Highest cleaning power compared to the competitors

Elettra prewet cloth gives an added value on the Automatic blanket washer competitors with cloth technology that already use a prewetted cloth

Elettra prewet cloth
